After 19 years of experience owning and operating Custom Limousines & Exotic Cars, we finally chose to break into a new segment of the market that serves larger groups with our **30-Passenger Party Bus**. Our Thunderstruck Party Bus is unlike anything our competitors have to offer. First and foremost, we do not offer school buses (spray painted funny colors), as we find they're only good for transporting schoolchildren who correctly would complain about the lack of fun or air conditioning. What we do provide is a unique **"NIGHTCLUB ON WHEELS"** loaded with every amenity (see below) and ready for a day or evening of endless fun for your entire group!
